JOHN T CRONIN
SOFTWARE DEVELOPER

Summary

Current student at Omaha Code school and recent graduate from Bellevue University with Cyber Security major. Seeking an entry level position at a dynamic company with career growth opportunities. I have always been a strong team player but also have proven leadership skills. I am a creative problem solver and eager to learn new technologies. I am customer focused, adapt to situations with ease, and am dedicated to delivering results.

Employment

Vail Resorts
Keystone, Colorado
Snowboard Instructor
Nov 2016 to Mar 2017

Children and Adult instructor. Was able to communicate skills to first timers.

Hy-Vee
Omaha, Nebraska
Assistant Catering Manager
Aug 2011 to Nov 2016

As a supervisor, I would manage catering and in-store events from start to finish. One aspect of my role was making sure that food preparation and delivery occurred on time with high quality. I have learned to multi task and meet tight timelines. During events, I was responsible to manage the catering teams from food service through venue cleanup and accountable for the work of the team. If customer satisfaction was in jeopardy, I used problem solving skills to take corrective actions and ensure expectations were exceeded.

Projects

My Personal Website
Aug 2017 to Current

My Github Page
Aug 2017 to Current

Omaha Film Streams Student Night
Sep 2017 to Current

Developed a web application for Omaha Film Streams' student night.
